Profile Summary

Detail-oriented Front-End Developer with 3+ years of experience building pixel-perfect, responsive, component-driven UIs in React + TypeScript. Strong passion for design systems, dashboard architectures, micro-interactions, and translating detailed Figma designs into clean, scalable interfaces. I blend a designer's eye with an engineer's discipline — ensuring every layout, spacing unit, and interaction contributes to an intuitive, high-quality user experience.

Core Skills

React + TypeScript

Tailwind CSS / Styled Components

Responsive UI, Grid/Flexbox

Design Systems

Figma-to-React Implementation

Dashboard UI Architecture

Micro-interactions & Animations

REST & GraphQL Integration

GitHub + CI/CD

Recharts / Chart.js / D3.js

| Education

BEI(Bachelor in Electronics, Communication and Information)

IOE Thapathali Campus — Studying

| Why I'm a Fit for Tirnu

- I naturally obsess over spacing, alignment, and UI polish — the exact qualities this role demands
- I've built multiple dashboards and admin panels, making me comfortable with complex UI logic
- I'm fluent in Figma → React workflows and design system thinking
- I enjoy building fast, clean, modern interfaces — especially in fintech and Web3 ecosystems
- I'm excited about the opportunity to shape Tirnu's UI from the ground up
